Skills Assessment Summary

This shows how task performance combines into overall skill mastery across three tiers.

TIER 1: Critical Skills (55 points) — 35/55 (64%)

MyFuseIn

before client-facing responsibilities.

ICP Refinement & Account Selection 17/18 (94%)

What it tests: ICP refinement depth, multi-stakeholder account targeting, research signal quality, buying persona mapping
Tested in: Task 1 (17pts)
Assessment: The candidate effectively narrowed the ICP to 200-500 employees and provided strong reasoning for exclusions, demonstrating a deep understanding of FlowMetrics' value proposition.

Outreach Strategy & Messaging 11/17 (65%)

What it tests: Multi-threaded outreach strategy, role-aware messaging, objection pre-handling, CTA reasoning
Tested in: Task 2 (11pts)
Assessment: The candidate provided a well-reasoned channel sequencing strategy that is persona-specific. Email was chosen for the VP of Operations due to its expected formality, while LinkedIn was selected for the CFO due to better responsiveness on social media. The strategy also addresses the multi-thread coordination problem effectively.

Discovery & Deal Qualification 7/20 (35%)

What it tests: Business acumen in discovery, competitive objection handling, internal-build objection, procurement handling, conversation control, qualification judgment
Tested in: Task 4 (11pts)
Assessment: The SDR failed to communicate effectively from the outset, unable to respond coherently to the prospect's opening questions and time constraints, leading to immediate frustration from the prospect.

TIER 2: Important Skills (28 points) — 23/28 (82%)

PASSED ALL THRESHOLDS

All important skills above 60% minimum.

Pipeline Judgment & Ownership 13/13 (100%)

What it tests: Pipeline status accuracy, account deep-dive quality, risk flag identification, pipeline insights and patterns
Tested in: Task 3 (15pts)
Assessment: All statuses are logically correct given the scenarios.

Sales Communication 10/15 (67%)

MyFuseIn

Assessment: The document is well-structured, making it easy for a VP of Sales to review quickly. It is organized into clear sections with high information density.

TIER 3: Bonus Skills (17 points) — 7/17 (41%)

BELOW THRESHOLD ON 2 SKILLS

Skills below 60%: Strategic Thinking, Initiative & Deal Advancement. Review areas below.

Strategic Thinking 4/7 (57%)

What it tests: Account prioritization logic, bottom-account reasoning, pipeline pattern analysis, competitive awareness
Tested in: Task 1 (4pts)
Assessment: The candidate justified the top 3 accounts with multi-factor reasoning, considering fit quality, timing, and deal size potential.

Initiative & Deal Advancement 3/10 (30%)

What it tests: Multi-channel sequencing, cross-thread coordination, deal advancement tactics, stakeholder mapping, urgency creation
Tested in: Task 2 (5pts)
Assessment: The candidate provides a specific cadence with timing and different channels. The plan includes escalation logic and specifies actions if the first touch doesn't work.

Complete Task-by-Task Performance (All 5 Tasks)

Task 1: ICP Refinement & Account Targeting 26/27

Objective: Refine the ICP (narrower than the brief), identify 6-8 high-impact accounts with primary and secondary stakeholders, prioritize with top-3 and bottom-2 reasoning.
